

PROJECT PROFILE:

Blue Heron Condominiums, Seattle, WA

Project Goals

Replace an existing, old, failing sub-metering system with a new, state of the art, remotely accessible wireless metering system. The customer wanted to utilize their existing water sub-meters currently connected to the old system with one that is high quality, will last for many years, and is easy to use. The property has 30 owner units and retail spaces.

Solution Provided

- NoWire™ remote wireless reading system with remote cellular GSM connection
- Installed new wireless transmitters to existing operational pulse water meters
- Onsite consultation, installation, and commissioning services
- Monthly meter reading services
- Accomplished full resident water and sewer utility recovery

Schedule

- Equipment supplied October 2013
- Installation and commissioning complete October 2013

Customer

- Blue Heron Condominiums
